

COVID 19 Daily Brief: 16th November

Holiday Update - Please communicate as wide as possible

- In the run in to Xmas it is understood that people are worried re using their holidays in case of isolation and wanting to avoid SSP etc.
 - This is also causing problems in terms of planning work up to Xmas
 - If everyone could book their holidays on the understanding that if you are required to adjust them due to track & trace isolation requirements, then this is understood.
 - For anyone who has not yet requested up to 5 day carry over of holiday, please do so by 30 November to assist with planning.
 - Also, please be aware that the NHS test & trace do not offer comfort assurance testing as part of their isolation procedures. It is only SL test & trace that offer this opportunity to P4 pass holders. We are expecting an information update.
 - Thank you.
