

COVID 19 Daily Brief – 13th July

In today's brief:

➤ Security Considerations

Security Considerations

As we have seen many times in the news, personal security can often be compromised by the most simplest of mistakes, or moments of forgetfulness.

Whilst at work and at home, please consider:

- Be suspicious
- Work on a need to know basis
- Don't open email attachments until you have verified the sender or content
- Don't spread rumours or gossip - they are designed to be spread!
- Be careful on the phone - Use headsets on conference / video calls
- Protect your personal / security information
- Be careful on social media sites / online info-gathering

- Report anything suspicious
- Stay alert
