## Use of face Coverings – HSE Advice for Employees

---

As you will have seen in the news, the use of face coverings is becoming common practice and mandatory on public transport etc, which we will incorporate into our C19 risk assessment where required. Please review the advice below when using a face covering:

- Wash your hands thoroughly with soap and water for 20 seconds or use hand sanitiser before putting a face covering on, and before and after removing it.
  - When wearing a face covering, avoid touching your face or face covering, as you could contaminate them with germs from your hands.
  - Change your face covering if it becomes damp or if you've touched it.
  - Continue to wash your hands regularly.
  - Change and wash your face covering daily.
  - If the material is washable, wash in line with manufacturer's instructions. If it's not washable, dispose of it carefully in your usual waste.
  - Practise social distancing wherever possible. You can make face-coverings at home and can find guidance on how to do this and use them safely on GOV.UK.
